Copy 3 of 3

15 January 1959

Dear Dick:

Our auditor is currently engaged in a property audit of your subcontract with P&E Purchase Order 64547 issued under Contract No. BC-200.

The Auditor requests the following information:

1. Have all items called for under the subcontract been satisfactorily delivered to and accepted by the Project?
2. Furnish a list of any Government material or equipment which may have been furnished to the subcontractor for performance of the work.

With regard to No. 1 above, please advise if you received all the material and give a cross reference to your item number in BC-200 under which the equipment was incorporated and/or redelivered to the Government.

Please advise if you requested the Government to furnish any GFE. If so, give us a listing of the requested and/or furnished items.

Very truly yours,

Dan
